SCHOOL MARQUEES

ENHANCE YOUR SCHOOL'S IMAGE...
BUILD YOUR SPIRIT!

Meet VisionGroup

VisionGroup Marquees brings you the next generation of digital marquee technology, quality, and craftsmanship; along with exceptional customer service and tech support.

The veteran VisionGroup team has over 150 years of combined experience in the institutional and digital sign industry helping schools and districts like yours stand out from the crowd and truly get noticed by your student body, their families and the community with pride.

At VisionGroup, we have to stay ahead of the newest developments and digital technology available. We offer the very latest, most innovative and reliable signage products available. Since we are a California company, you can rest assured that we are locally available for any needs you may have.

Our revolutionary communication options include built in modular, cellular modems with a lifetime subscription included. From our optional 10-year warranty for our digital boards to our award-winning graphic design team, VisionGroup Marquees provides a comprehensive "turn key" package of convenience from the biggest DSA involved projects to the simplest smaller scale projects. We are unmatched by other companies in the industry while maintaining very competitive pricing and value.

If needed, we have extensive background working with the DSA and in compliance with DIR standards in California to make your experience as seamless as possible.

THE IMPORTANCE OF YOUR SIGN

Your Sign Lets People Know Who You Are

Your sign identifies you to the many people who pass by or live in your community.

It Increases School Spirit and Student Activity

A beautiful new sign with messaging capability will continually remind the students of events taking place at school. Student participation dramatically increases with these constant reminders of upcoming events.

It Increases the School's Financial Resources

Now you can let your community and school know about fundraisers and events well in advance.

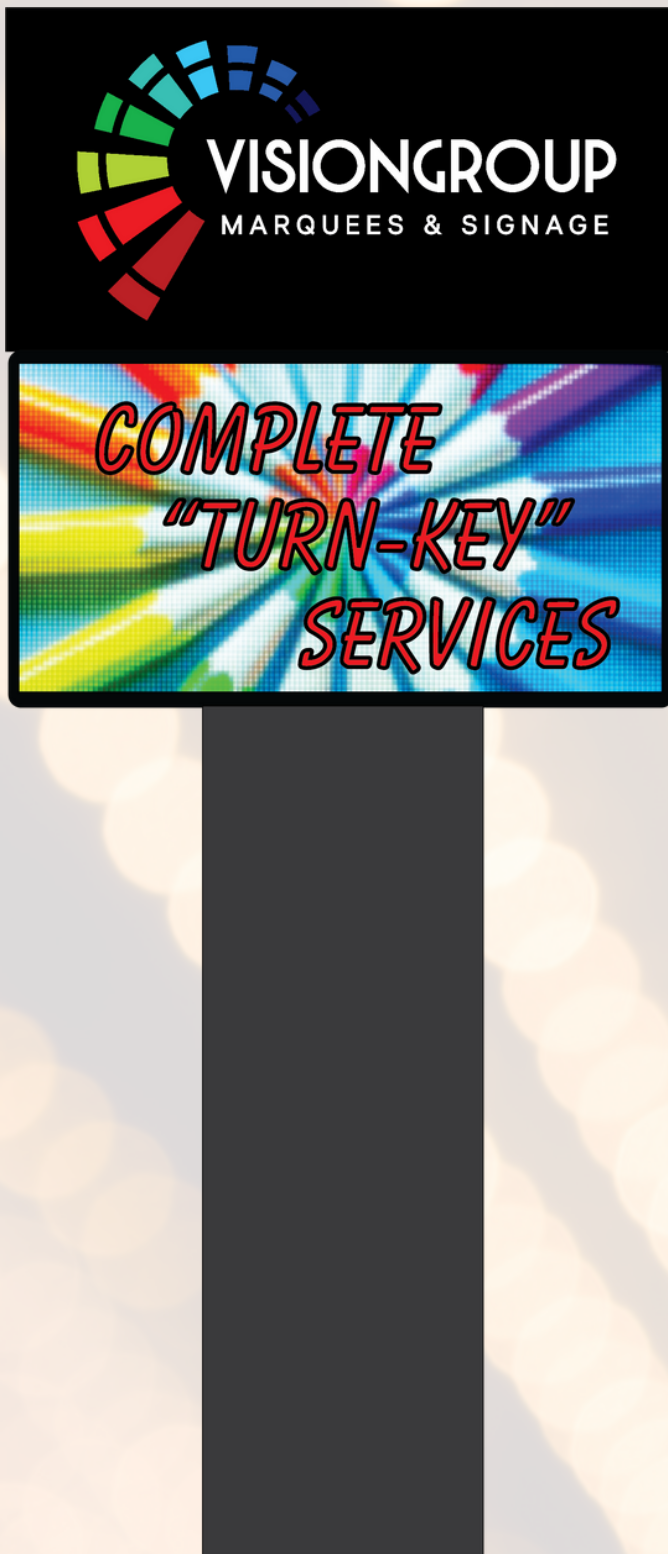

ROYAL HIGH

**Congratulations to
Royal Baseball
CIF Division 4 Champs!**

NOT ALL SIGNS ARE CREATED EQUAL

THE VALUE OF SIGNAGE: ADVANTAGE OF A VISIONGROUP SCHOOL MARQUEE

VisionGroup Marquee and Signage products are manufactured in California at our state-of-the-art production facilities with the highest quality materials and components. With VisionGroup Signage, many schools are able to affordably display a beautiful and professional image while efficiently communicating with the community and the student body and their families.

SOLAR-GRADE POLYCARBONATE SIGNS FACES

Our Solar-Grade Polycarbonate sign faces are virtually indestructible. VisionGroup Marquees offers a lifetime warranty against breakage of any kind including vandalism.

100% INDUSTRIAL GRADE ALUMINUM CABINETS

Our ultra strong frames will withstand the elements of wind and water with a 140 mph wind-load tolerance. The cabinets can be color matched to compliment your schools color theme or black to match the finish on the digital portion of a combo display.

Complete turnkey service or your district can install themselves.

INNOVATIVE TECHNOLOGY

The team at Media Editor collaborated with various engineers to develop a revolutionary new “Cloudware” software that resides “in the Cloud”. No longer will our clients have to play the role of graphic designer if their resources are limited as we offer graphic design of reusable content as an ongoing option. Because there is no longer a need to use proprietary design software, your content can be done with any application that you, your staff, or students are already accustomed to using. VisionGroup and our team actually provides “proactive” tech support that will notify us when your display encounters a technical issue and allows the display to be programmed from any location, using any device; PC or MAC, tablet, Ipad or even your smart phone, as long as you have been given the proper security clearance.

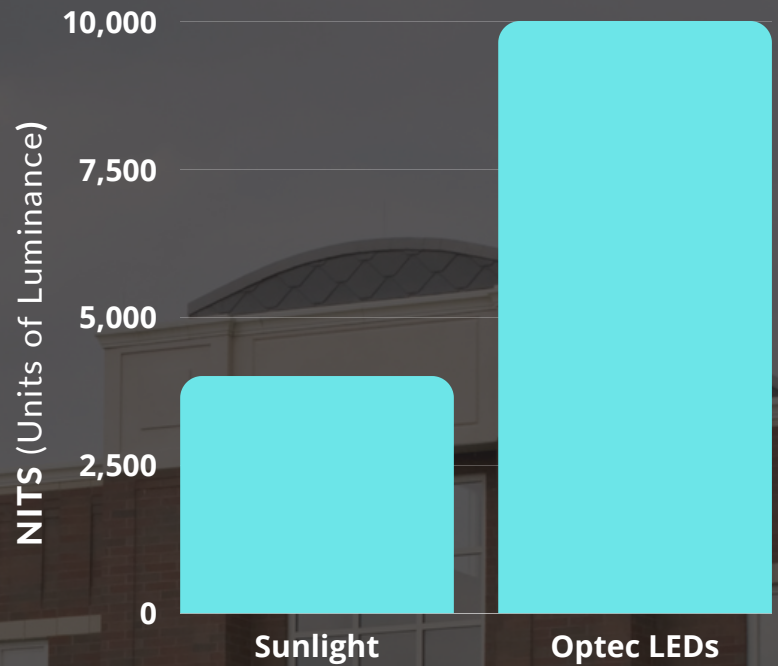

All you need is an Internet connection. This allows for multiple, “permission-based” users. The sign “administrator” can assign multiple people access to change the displays schedule, yet still has the override capabilities at any stage. Additionally, the media and schedules stored “in the Cloud” and are backed up regularly.

BRIGHT & VIBRANT MESSAGES

The brightness of an LED sign is generally measured in a value called NITS. The higher the number of NITS, the brighter the display. Sunlight is rated at 4,000 NITS. All of our EMCs have an 11,000 NIT value.

The D.M. Pro + CNet 1.0 software includes a feature that allows the user to adjust the brightness for daytime or night time use. Our signs surpass industry standards and can even be used in the very brightest full & direct sunlight.

FULL COLOR ELECTRONIC DISPLAY

FULL COLOR ELECTRONIC MESSAGE BOARDS

From simple text messages to high resolution graphics and videos, our eye-catching and versatile full color electronic message boards do it all.

QUALITY YOU CAN DEPEND ON

- 281 Trillion Color Display
- Cloud-Based Programming
- 100,000 hour plus LED Life
- Cellular Modem, WiFi, Cabled Ethernet or Fiber Optic Offered Communication
- 10 Year Parts Warranty Available
- Lifetime Remote Diagnostics
- Modular Parts Technology
- UL, ETL, CE, FC Listed
- Training Webinars and Tech Support Included
